NEW SCHOOL INSTRUCTIONS

School Name:

CYBERCIVICS™

Welcome to Cyber Civics! Getting started is easy. Simply use the proprietary link(s) below to open an account for the level(s) you wish to teach. Follow the steps to get instant access to lesson plans, slides with embedded videos, family activity letters, student packets, and more. Once enrolled you'll receive our monthly newsletter alerting you to updates and new resources. Enjoy!

Digital On-Ramps:

Level 1:

Level 2:

Level 3:

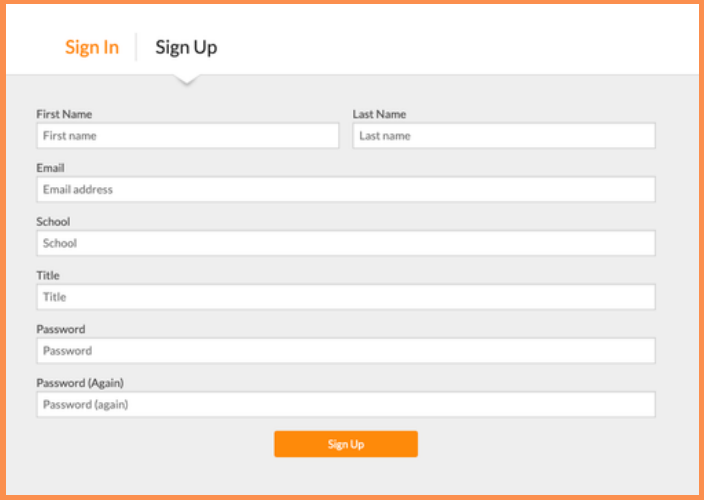

All Levels:

After you click the link, follow these easy steps.

1

Using your school's proprietary link(s) above, go to the curriculum landing page.

Click here: Purchase to reach the form below (don't worry that it reads "Purchase," you already have!).

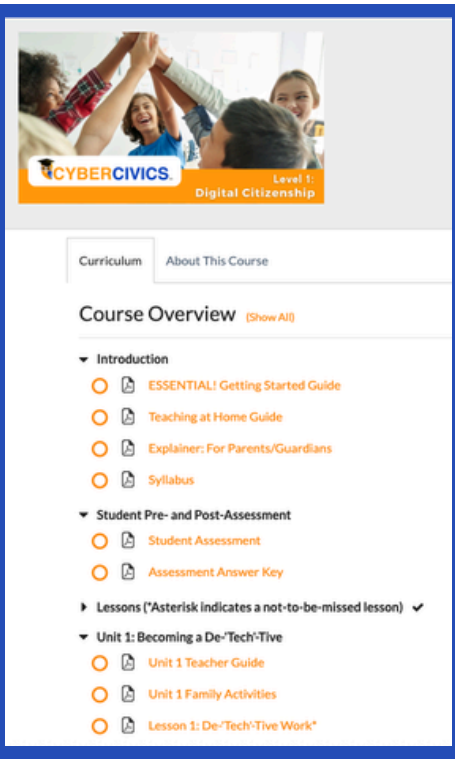

2

If you are a new instructor or signing up to teach a new level, select "Sign Up" and complete the form.

3

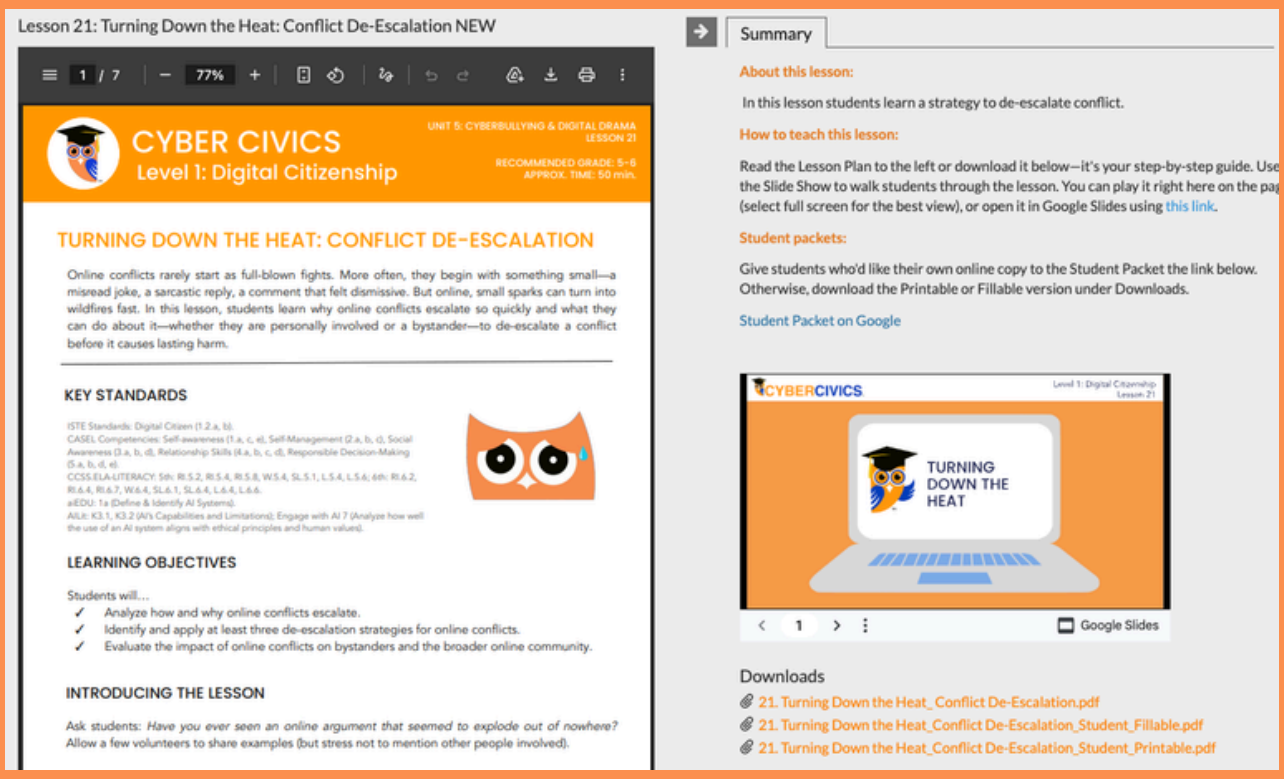

Next, under “Curriculum,” you'll see "Course Overview." This main menu gives you access to all the materials you’ll need to teach the lessons. As you move through the course, the orange circles will fill in with checkmarks, letting you know which lessons you've taught.

Please bookmark this page!

4

When you select the lesson you wish to teach, you’ll see a page like the one below. To the left is the Lesson Plan. Under “Summary” you'll find the lesson description, instructions, and the Slides (with videos) playable right from this page (just select “Full Screen”). There is a link for the Student Packet. Under "Downloads" you'll find the Lesson Plan, Student Packets (FILLABLE and PRINTABLE versions).

Don't hesitate to ask for help! We offer complimentary online tutorials, professional development webinars and parent presentations. Be sure to join the Cyber Civics Instructor Facebook Group.
